Perot Systems can help healthcare providers increase physician practice performance and align clinical and administrative strategies, while improving the quality of care for patients. We provide practices with new capabilities to enhance revenue cycle performance, support a paperless practice, and transform clinical processes.

Trusted Solutions

Perot Systems enables hospital-affiliated physician groups, large practice plans, and academic medical center faculty practice plans to achieve predictable, sustainable results and overall performance improvement through the following business, clinical, and technology solutions:

Revenue Cycle Solutions: Leveraged service centers and value-add technologies, combined with virtual front and back office management, integrated transaction workflow, and comprehensive accounts receivable management enable you to resolve aged A/R, better manage your revenue cycle, and improve financial performance

Electronic Health Record (EHR) Implementation: Implement, integrate, operate, and improve physician adoption of the industry's leading EHRs to enhance physician mobility and medical chart reliability

Clinical Transformation: Business process reengineering, training, and physician adoption to help ensure a successful EHR implementation

Information Technology (IT) Solutions: IT operations, integration, security, technology, implementation, practice management systems enhancements, and network management and operations to improve security and reliability in support of overall practice performance and alignment strategies

By teaming with Perot Systems, you have a single point of accountability for all IT and revenue cycle performance. We provide a trusted provider for administrative and IT functions, allowing physicians to focus on clinical delivery and strategy.

Proven Results

Perot Systems currently supports 6,000+ physicians in more than 42 practices, while processing more than 40 million physician claims transactions each year. We combine our physician practice expertise with our revenue cycle, clinical transformation, and IT experience to deliver significant investment and substantial results.
